

## Bicycle Camping Trip

Are you ready for some F – U – N ?

All scouts going on the June 2-3 bicycle camp out must have a **bicycle** in good repair and be able to ride at least 15 miles at a reasonable pace. (We will not be stopping every mile.) In addition, all scouts **MUST** have: a **helmet**, a **full water bottle** and cage or other **way to carry their own water bottle**, a **light jacket** in case of wind or rain, and a light **snack** like granola bars **or money** to purchase a snack. Be sure your tires are properly inflated before you show up to ride!

Those working on their cycling merit badge should clean and adjust their bicycles *PRIOR* to the camp out and be prepared to explain the adjustments and lubrication points to Mrs. Suilmann. The ride will count as one of your required rides for the merit badge. If you are 16 or older, a state trail pass (\$5 for daily pass) is required.

Please bring your normal camping equipment and clothing in addition to the cycling gear listed above

We will be meeting at the bicycle trailhead at the intersection of County Roads S and O near Wissota Golf Club at 10:00 on Saturday. We will need a couple of adults to help Mrs. Suilmann and Mr. Normand ferry camping equipment to Scout Island and stay with the scouts during this transit time prior to beginning our ride. Please let me know if you could help for a short while. We plan to ride at least to Jim Falls and back to Scout Island (15 mile minimum). Depending on time and weather, we may also hike later that day, so bring your hiking/walking boots!

Call Mrs. Suilmann at 288-6850 with any questions.  
See you soon!
